National Estuarine Research (JC NERR)

Coastal Upwelling

October 28, 2009 4:00-5:00 pm

El Nino & La Nina

November 18, 2009 4:00-5:00 pm

FREE

Coastal Upwelling

Develop a greater understanding of coastal upwelling as we use hands on materials to explore the reasons and impacts of coastal upwelling and downwelling, and the effects of wind and the Earth's rotation. Register by 10/26/09

El Nino & La Nina

Through hands on activities discover the phenomena known as El Nino and La Nina. Explore the long term normal conditions of the ocean and how those conditions change in an El Nino or La Nina year. Register by 11/16/09

Participants will receive the American Meteorological Societies (AMS) teacher's modules and CECs
