All across New Jersey, people are looking for ways to save energy and the environment.

Now municipalities and local government officials can take a leadership role by participating in the Local Government Energy Audit Program offered as part of New Jersey's Clean Energy Program.

The Local Government Energy Audit Program targets municipal and local government owned facilities. All municipalities and other local governments located within the service territory of at least one of NJ's public utilities are eligible.

September 23, 2009

10am—11:30am
