Course Goal:

To create a draft evaluation plan and have an improved ability to plan for a project or program evaluation that is efficient, effective and yields meaningful results.

Where: JC NERR Coastal Center

130 Great Bay Blvd., Tuckerton, NJ 08087

When: February 17 &18, 2010

Prerequisite: Course participants **MUST** have working knowledge of logic models to attend this course.

*Onsite, overnight accommodations can be provided
on a first come, first served basis.*

Course Overview:

This two-day training will actively engage participants in creating a comprehensive evaluation plan. Whether planning for an in-house or contracted evaluation, participants will critically analyze their evaluation priorities and gain insights on data collection, analysis options, and reporting considerations.

By the end of this training, participants will have created draft plans for efficient and meaningful evaluation of their programs or projects.
