Course Overview:

Learn about the NJ DEP Division of Fish and Wildlife's geographic information system (GIS) approach to mapping endangered and threatened wildlife habitat throughout New Jersey!

The Landscape Project is used in many state planning efforts and is referenced in a number of state regulations. It is also widely used in local environmental resource inventories throughout the state.

Participants will learn how the Landscape Project was developed and have an opportunity to use GIS "hands-on" to access habitat maps for threatened and endangered wildlife species.

Where: JC NERR Coastal Center
130 Great Bay Blvd., Tuckerton, NJ 08087

When: March 23, 2010

Time: 1-4pm

Light refreshments and snacks will be provided.

Newly released, Version 2.1 and Version 3.0 of New Jersey's Landscape Project that identifies habitats throughout the state can be obtained:

- Online via download: <http://www.nj.gov/dep/gis/>
- Online via DEP's Interactive mapping application:
<http://www.nj.gov/dep/gis/>
- On Compact Disc by request to the Division of Fish and Wildlife's Endangered and Nongame Species Program by calling 609-292-94001414; or writing to P.O. Box 400, Trenton, NJ 08625-0400.
